INDIA'S GOLD: TRADITION

SUNDAY BITE • From the Desk of
Dr. Aditya Vijay Kashyap

Many still buy physical gold... just think a little before you do. □ Why shift to better assets:

- Physical gold = no compounding.
- Locker fees + security risks.
- Purity & resale losses.
- Equity & ETFs beat inflation.
- SGBs & Digital Gold give return + safety.

□ Tradition and investment can co-exist. Keep gold for sentiment — but grow wealth with productive assets.
